

I support XM Satellite Radio's right to provide Instant Traffic and Weather reports. This is a valuable service, I am paying for it! I feel my rights would be violated if this programming was not allowed. The National Association of Broadcasters should not have the right to limit my right to the programming that I like and deserve. XM Radio provides Variety and Quality that are not available elsewhere.

I respectfully urge the FCC to reject the NAB's petition 04-160 and support XM Satellite Radio's ability to provide the kind of programming I have demanded from them and deserve.
